

CONFERENCES & PROGRAM

TUESDAY JUNE 11, 2024

9:00-9:30 OPENING CEREMONY

9:30-11:00 COMPOSITES IN AUTOMOTIVE SESSION

9:30 – 10:00 Keynote Speech: Driving Innovation with Composites, Outlook of the use of Composites in BMW cars, (BMW)

Explore the advancements in the automotive sector, focusing on how BMW integrates composites for enhanced performance and sustainability.

Keynote from [BMW Cars \(BMW\)](#)

10:00 - 11:00 Panel Discussion: Sustainability Contributions of Composites in the automotive industry

Dive into the environmental aspects of composite use in the automotive industry, addressing challenges and opportunities in sustainability.

- Prof. Kheng Lim Goh - [New Castle University](#) (Singapore)
- Dr. Henry Shin - Managing Director, Carbon & Composites Solutions Center, [KCarbon](#) (Korea)
- Valerio Corniani - VP Asia Pacific, [Diab](#). (Australia)
- Moderator: Danu Chotikapanich - CEO, [Cobra International](#)

15:00-16:30 COMPOSITES IN DRONE & AERONAUTICS SESSION

15:00 - 15:30 Keynote Speech: Thermoplastic Cabins (CTC an Airbus Company) -

Elevating the Future: Composites in the Sky

Discover the transformative impact of composites in the aerospace and drone sectors, contributing to significant advancements in air mobility.

15:30 - 16:30 Panel Discussion: The Role of Composites in Drones

High-Flying Innovation: Drones and Beyond

Explore the critical role composites play in the drone industry, from design and manufacturing to the implications for future aerial technologies.

- [Qarbon Aerospace](#)

WEDNESDAY JUNE 12, 2024

9:15-10:45 COMPOSITES IN SPORTS SESSION

9:15-9:45 Keynote – Market Outlook of the Sports Industry

9:45-10:45 Panel Discussion: R&D and Collaboration in Composites

Synergizing Strength: The Power of Partnership

Delve into the collaborative efforts between part manufacturers, material suppliers, and academia in advancing research and development in composites.

15:00 -16:30 COMPOSITES IN CONSTRUCTION SESSION

15:00-15:30 Challenging Composite Applications in Construction

Uncover the potential of composites in construction and architecture, focusing on innovative solutions that meet structural and environmental challenges.

Thammachat Kulprapha - Managing Director, [Nontri Co., Ltd.](#) (Thailand)

15:30-16:30 Panel Discussion:

Structures of Tomorrow: The fiber reinforced concrete

Engage in a comprehensive discussion on how composites are driving the development and realization of groundbreaking architectural projects.
